ENTRY DOORGLASS

THE BEST-SELLING BLINDS BETWEEN GLASS

Now Available for Entry Doors

Blink® Entry Doorglass brings an updated look, feel and finish to your entryway while keeping the same benefits of maintenance-free light and privacy control of enclosed blinds.

This latest design combines **easy operating effort** and **long-lasting reliability** that continues our 20-year history of building the best-selling blinds between glass in the industry.

Blink doorglass is certified by the IGCC for seal durability (ASTM E2190)

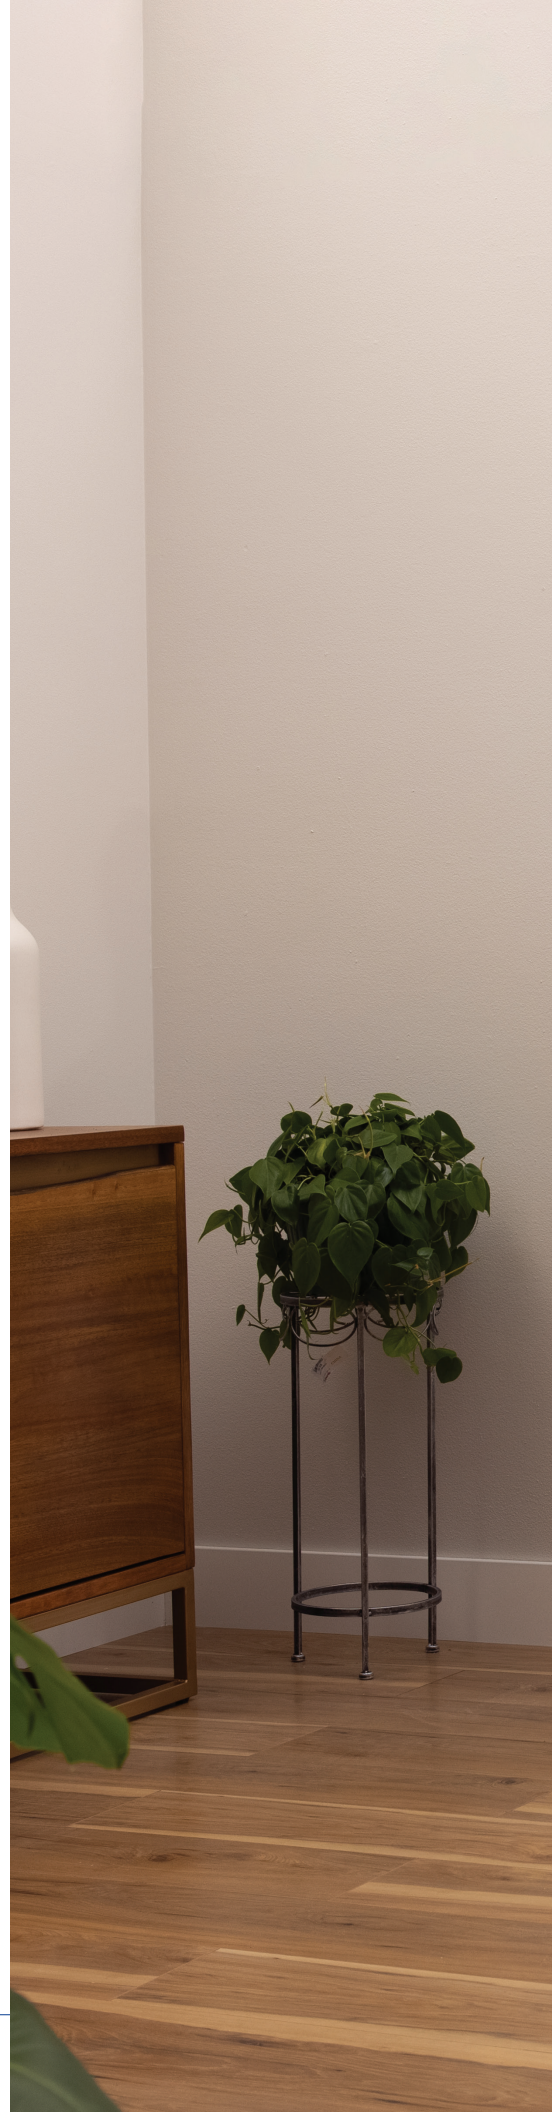

Easy to Operate

The levels of light and privacy in your home are yours to control using our **Easy Glide Operator** which slides along the **Ergo Track** using **Sure Connect Magnets**.

The ergonomically placed operator lets you raise, lower and tilt your blinds the entire length of the doorglass with only the slightest movement. No reaching or stooping is needed to adjust the blinds. An innovative design results in stacked blinds that take up the smallest of space at the top of the doorglass when fully opened.

Control light and privacy with our Easy Glide Operator

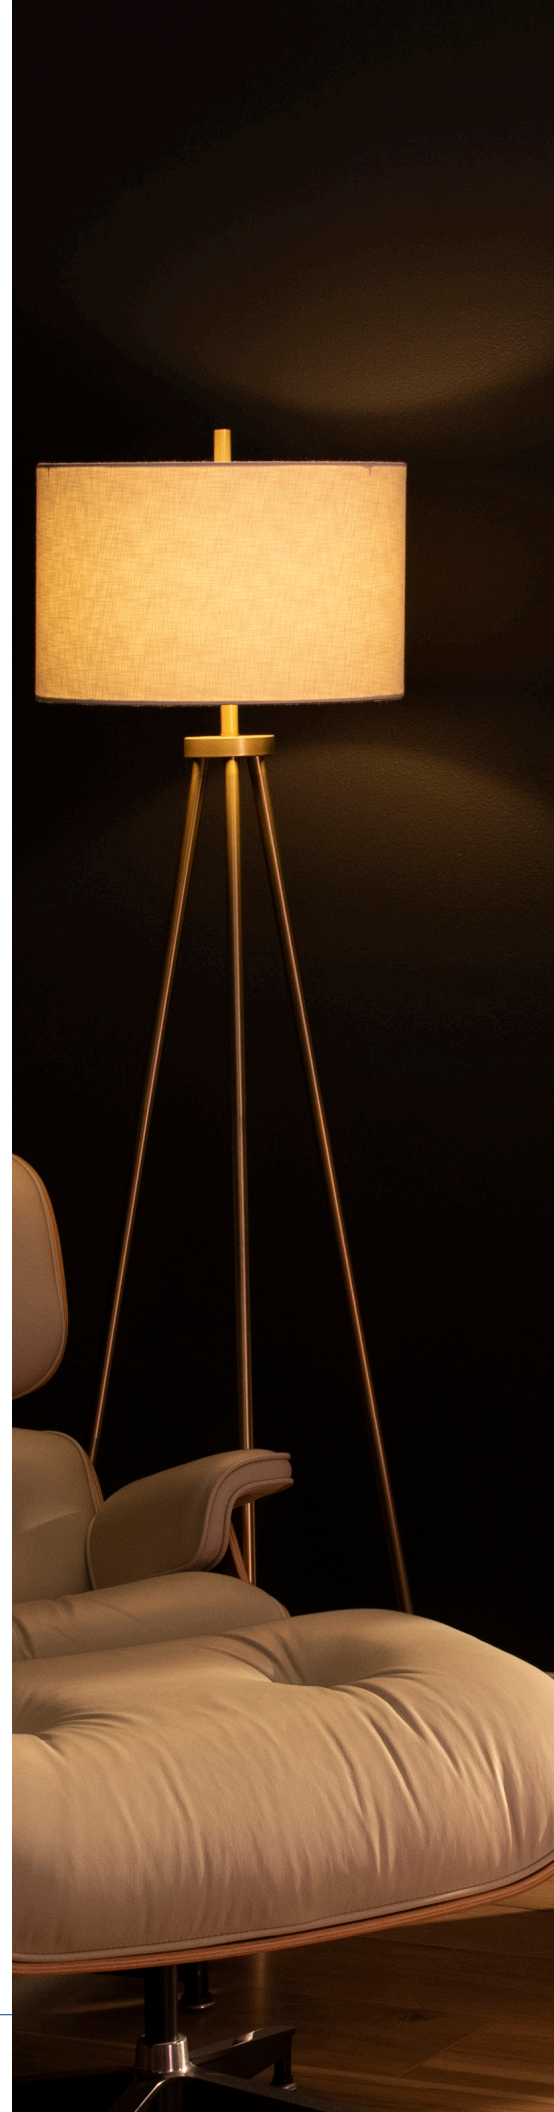

White 22x64 in ZEEL frame

Light and Privacy Control

Whether you're looking to enjoy the outdoors or need to turn off the outside world, the perfect levels of light and privacy are yours to control. Our superior **Easy Glide System** allows our blinds to tilt completely closed, keeping you safe from prying eyes and unwanted light. The full privacy channels eliminate light gaps, shadows, and sunlight glare.

No more light leaks with Blink Entry Doorglass

Slate Gray 22x64 in a ZEEL frame

Low Maintenance

Since our blinds are enclosed between two panels of glass, you never need to dust which decreases allergens in your home. Even with repeated use, our enclosed blinds retain their new look—unlike exposed blinds that can become bent or tangled over time.

Blink Entry Doorglass carries a **20-year warranty** on blinds, glass seal and operator for a long-term performance in your exterior door.

No more bent or tangled blinds

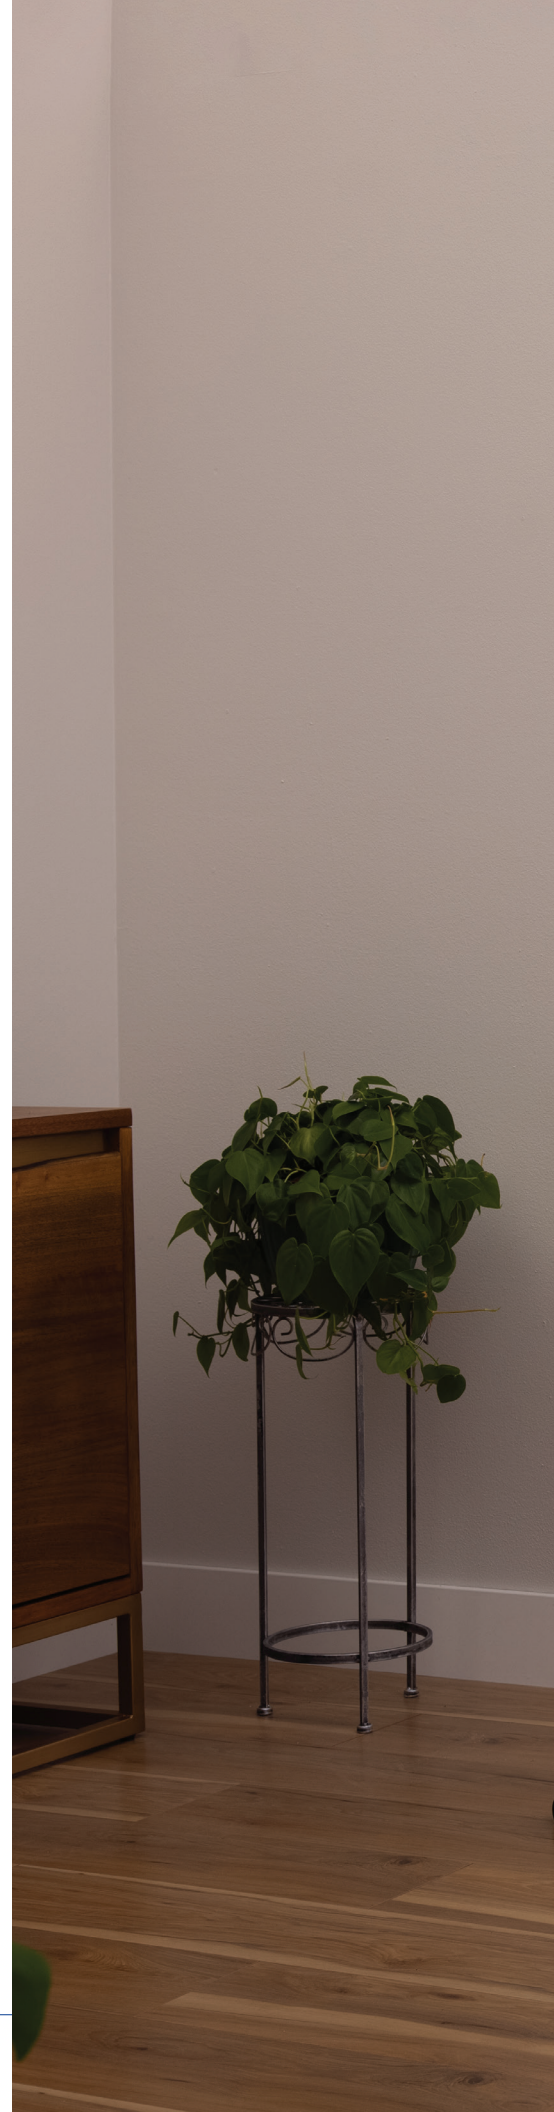

Safety

Blink is leading the industry in enclosed blinds that reduce the safety risk for children and pets. With no dangling cords, our blinds have received two certifications from the Window Covering Manufacturers Association and Parents for Window Blind Safety. Both organizations strongly urge parents to use window coverings without accessible cords in homes with children. In addition, all our enclosed blinds are offered in tempered safety glass.

Attention to Detail

We prioritized style and design by offering six colours and paid attention to aesthetic details, such as covering the cords with a bottom rail and matching all the visible components so the colours of your entry door blinds will always coordinate with your décor.

Choose from an **Evolve**® or **ZEEL**® doorglass frame* to complement your home's architecture, whatever the style.
